ECB Guidelines for Junior Players in Open Age Cricket

The ECB has had several requests to clarify the guidelines issued in December 2009 on junior players in open age cricket. The intention of merging previous guidance documents was to clarify this area for clubs and leagues to assist them with planning and fulfilling fixtures so as:

- Not to place a young player in a position that involves an unreasonable risk to that young player, taking account of the circumstances of the match and the relative skills of the player.
- Not to create a situation that places members of the opposing side in a position whereby they cannot play cricket as they would normally do against adult players.

In addition the guidelines note the need for clubs and leagues to recognise the positive experience that young players should have in open age cricket and thus clubs should provide an opportunity for players to show their talents in an appropriate way. Children who are just used as fielders will not fully experience the game.

The guidelines are designed to help clubs to decide when to select young players in **open age competitive** cricket and how best to help their cricketing development when they play within open age groups. For example: Under 12 age group players* and younger should not play in open age competitive cricket. Under 13 age group players* can play in open age group competitive cricket, (i.e. players aged 12 and over) if considered by a qualified Level 2 coach or above that it is appropriate for their development.
